# **Some facts about the District 39 contract negotiations:**

## **Teachers want a fair agreement, nothing more.**

When the board walked away from the negotiating table they left us no choice but to file a notice of intent to strike. **We are more than willing to return to the table at any time. We don't want a strike.**

## **The issue is parity.**

Teachers are looking for parity with New Trier feeder districts in the areas of health care benefits and salary schedule.

## **We want District 39 to be able to attract and retain top quality teachers.**

To have exemplary schools, a school district must have exemplary teachers. With a fair, equitable contract, the district will be able to attract and retain the "best of the best." **A fair contract will secure the future of Wilmette schools.**

## **A fair contract benefits everyone**

- Top Quality Teachers
- Strong Property Values
